INSTRUCTIONS

**If your tablet has a previously installed screen protector, please remove it before continuing.

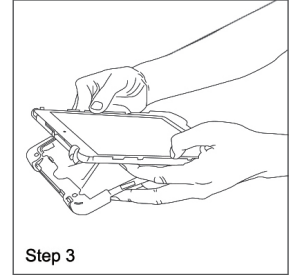

1. How to insert tablet into case

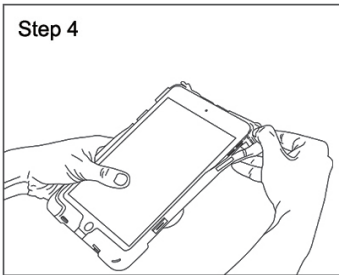

Step 1:
Peel away plastic frame starting with the bottom of the case as shown to the left. Work your way around the perimeter, unclipping the frame where there are clips.

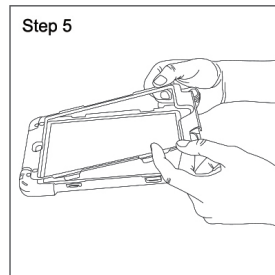

Step 2:
Starting at a corner of the case, peel away the silicone jacket. Work your way around until only the back half of the hard case remains

Step 3:
Insert tablet into the back portion of the hard case

Step 4:
Starting at a corner, re-apply silicone jacket around the back portion of the hard case

Step 5:
Re-insert the front frame back on. Make sure you go around the perimeter of the case and clip all the clips securely and tight.

2. How to use in handheld

**Tablet Not Included

2A. Identify velcro handstrap and adjust to fitted size. Insert your hand as shown and you're ready for mobile setup.

3. Attaching carry strap

**Strap Not Included

3A. If you have the corresponding shoulder strap (sold separately), insert the ends into the strap holes. Then tie them up and clasp the front as shown to the left.
