3.8' Security Cable Lock Add-On for CTA Mounts

3.8' Security Cable Lock Add-On for CTA Mounts

This galvanized steel cable keeps devices fully protected from theft in public spaces, or any place extra security is required. It's ideal for coffee shops, public libraries, dorm rooms, outdoor cafés, and more. Simply loop the cable end around a permanent fixture like a table leg, pipe, or permanent fixture. Then, insert the security lock head into your device's locking slot and rotate key and remove to secure. At 3.8-feet long, this cable provides plenty of reach in almost any environment.

Features:

- Galvanized steel cable with lock head and looped cable end
- Compatible with all standard devices with k-slots or cable lock slots
- Keeps laptops, desktops, and other devices securely anchored to table legs, desks, counters, or permanent fixtures
- Perfect for dorm rooms, reception desks, waiting rooms, retail counters and more

Package Contents:

- (1) Security cable
- (1) Set of keys

Specifications:

- Cable length: 3.8'L
- Weight: 0.3 lbs.
