Hyperflex Universal Security Kiosk w/ Power Bank Holder for Medium Tablets

CTA Digital's Hyperflex Universal Security Kiosk with Power Bank Holder for Medium Tablets is the perfect stand for use in retail, restaurants, coffee shops, schools, hospitality desks, check-in stations, and more. The metal enclosure features a powerful lock and key security system and can be mounted either vertically or horizontally to the stand via standard VESA plate. It's got plenty of space to route cables through both enclosure and stand to keep workspaces tidy. This kit comes with an easy-to use power bank holder. It attaches to the enclosure's VESA holes, and can be positioned in various places, depending on user preference. The power bank holder adjusts in length, depth, and height to accommodate a wide variety of power bank sizes and shapes. The sturdy base can be permanently mounted to any horizontal surface but is also heavy enough for use without screwing it down. The stand itself features full 360-degree rotation, making ideal for quick switches between buyer and seller.

Features:

- Power bank holder adjusts in length, width, and depth to accommodate a wide variety of power bank sizes (see specifications)
- Power bank holder features its own anti-theft k-slot for added security (cable not included)
- The Desk mount head features 360-degree rotation
