Monitor Arm Clamp Mount w/ USB Hub and Keyboard Tray

Compatible with Monitors up to 19.8 Lbs

Monitor Arm Clamp Mount with USB Hub and Keyboard Tray

This versatile arm mount combines a mount that clamps anywhere, plenty of adjustable pivot points, 2 USB hubs, and a keyboard tray with anti-slip grips. A perfect addition to a classroom, conference room, or doctor's office, this remarkable aluminum arm installs easily to a desk, countertop, or table, using either the adjustable scratch-protected C-clamp or the included grommet mounting system. Customize your setup with 360-degree rotating pivot points at both the arm base and at the flexible, gas spring elbow joint. This holder grips monitors – or even tablet enclosures – by the corners and locks in place with a set of included keys. At the base of the mount are 2 USB extension ports for easy charging while in use. Just plug the attached USB cables into a computer or other power source, then plug devices directly into the base of the stand. The keyboard tray screws easily into the arm, and holds keyboards in place via rubber padding and a tray lip.

Features:

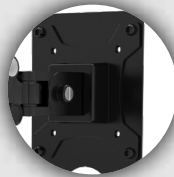

- Sturdy aluminum construction
- Locking tablet holder with 2 keys
- Gas spring, angle-adjustable arm with flexible elbow joint
- 360-degree rotation points at arm base and elbow joint
- Mount head tilts at two axes and rotates 360 degrees for portrait and landscape orientations
- C-clamp and grommet installation systems
- Keyboard tray can expand-and-stow
- Keyboard tray expands for further workstation surface area
- Edge lip on key sides to help aid items from sliding off
- 2 USB ports in base and 2 USB cables originating from base to keep your device charged
- Compatible with monitors up to 19.8 pounds
