

Universal Security Grip Kiosk Stand

PAD-USGTW

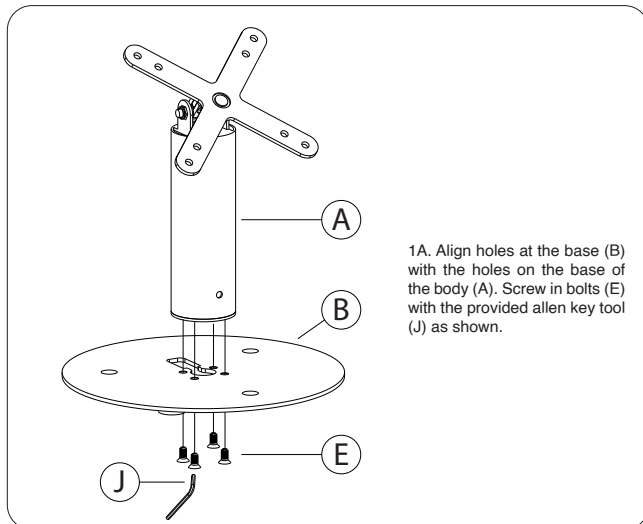

INSTALLATION - MANUAL

CONTENTS:

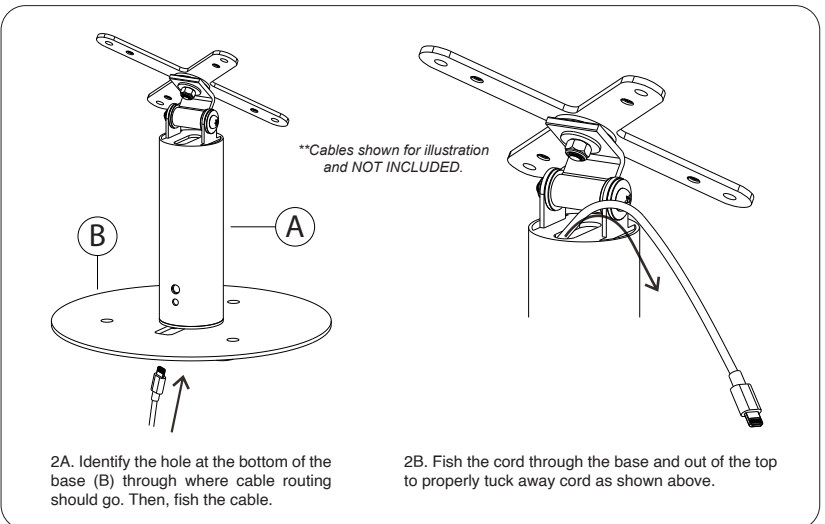

INSTALLATION:

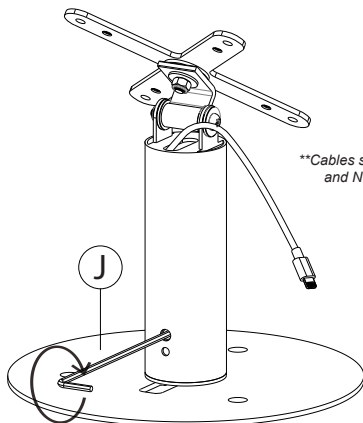

1. Assembling Base to Body

2. Cable Routing / Cable Management

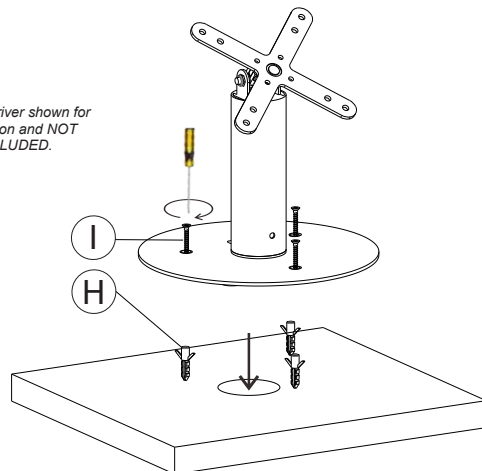

Optional Locking Base Rotation

Turn clockwise with provided tool to prevent body rotation using the provided allen key tool (J).

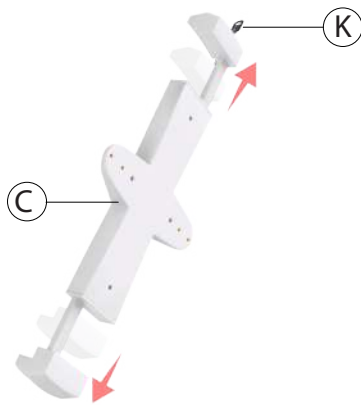

Optional Mounting into Surface

****Screwdriver shown for illustration and NOT INCLUDED.**

For a more permanent static setup, use a screwdriver (not included) and rotate in 3 screws (I) as illustrated into 3 predrilled holes with the anchors (H) inserted until securely fastened.

3. Inserting Tablet into Holder

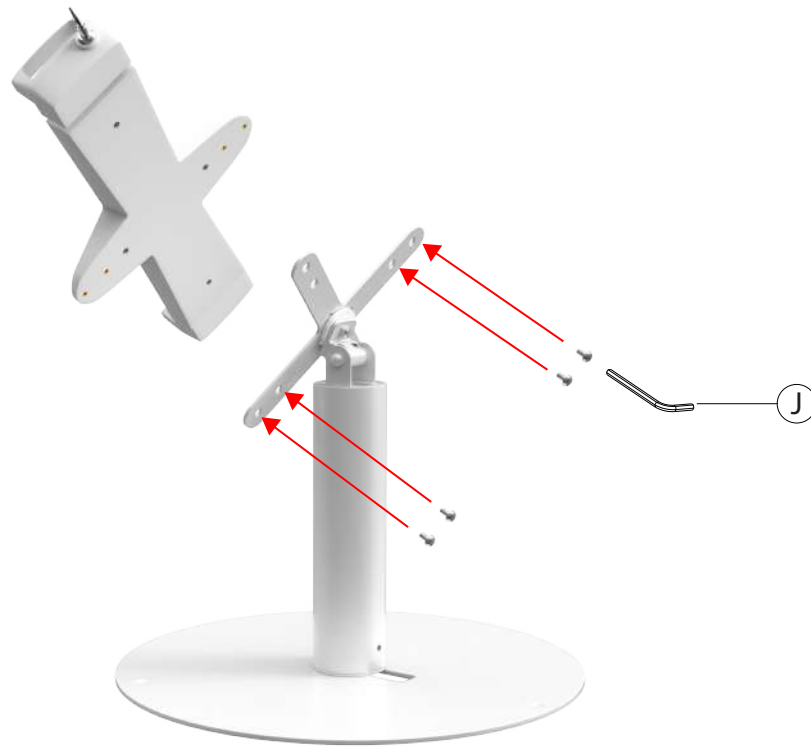

3A. Take the holder (C) and insert the key (K) to make sure you have the arms unlocked. Extend the arms out to match the corners of the tablet (not included).

****Tablet shown for illustration and NOT INCLUDED.**

3B. Retract the holder on the outside of the tablet as illustrated. Lock the key to secure into place.

4. Attaching Holder with Kiosk Body

4A. Align tablet holder VESA holes with the Kiosk body VESA plate holes. Rotate in with the provided tool until securely fastened.
