Bluetooth Speaker Mug

with Mug Stand and Porcelain Mugs

1 BLUETOOTH SPEAKER MUG
2 PORCELAIN MUGS

Bluetooth Speaker Mug

Experience high-fidelity audio in your kitchen without the unsightly clutter of wires, with the Bluetooth Speaker Mug with Mug Stand and Porcelain Mugs from CTA Digital. This clever, convenient device uses a Bluetooth speaker discretely embedded within a coffee mug, so you can enjoy your favorite music at crystal clear quality while you cook. No more tangled or faulty cords crowding your counter space. Simply hang the speaker mug from a rung on the included stand, power it on, and sync with any Bluetooth-enabled device to stream all of your media. The speaker mug also accommodates hands free phone calls at the push of a button, so you can stay connected even when you're busy stirring or sautéing. With exceptional portability and ease of use, the speaker mug is the perfect option wherever you need wireless sound—in your living room, your office, or even your backyard!

Features Include:

- Powerful speaker concealed in a coffee mug streams your media via Bluetooth
- Rechargeable, portable Bluetooth speaker mug
- Speaker mug includes headphone jack, volume control, play/pause button, and hands-free call button
- 2 additional matching porcelain coffee mugs complement design
- Elegant chrome plated stand can hang up to 6 mugs, including the speaker mug
