

PAD-HLTAM

Articulating Height-Adjustable Laptop and Tablet Arm Mount

Laptop and Tablet Arm Mount

With this innovative, customizable dual mount, you can access your tablet and laptop side by side with ease. Holding each of your devices at the ends of two multi-jointed, rotating arms, this setup allows you enormous customization. Adjust the vertical positioning of the two arms along the central mounting pole, stacking either on top of the other, and use the 4 joints along the arms to create your perfect viewing angles. The arms each rotate a full 360 degrees around the center, as do the laptop and tablet holders at their ends, giving your tablet the means for fast switches between portrait and landscape orientations. The central mounting pole is equipped with a useful tool holster for storing the included Allen keys. The powerful, scratch-protected C-clamp allows clean setup on tables, desks, or counters, making this mount a useful addition to classrooms, conference rooms, home offices, or doctors' offices.

Features:

- Twin arms hold your tablet and laptop side by side
- Central mounting pole allows for custom height positioning for both arms
- 360 degree rotating tablet holder for portrait and landscape orientations
- 360 degree rotating laptop holder
