Anti-Theft Security Kiosk Stand for iPad Pro 12.9

Anti-Theft Security Kiosk Stand

This versatile security stand is made of strong and stylish aluminum and is designed to function as a workstation, kiosk display or retail POS stand. The cast aluminum enclosure is made to fit the iPad Pro 12.9 with openings for all ports and cameras and includes an optional home button cover. The case tilts to adjust the viewing angle and rotates for horizontal or vertical views. The base can also rotate a full 360 degrees to easily switch from register to customer-side transactions. The anti-theft enclosure locks your iPad in, unlocking with a set of included keys. For an optional added measure of theft protection, a locking steel cable attaches to either the stand base or holder, securing easily to any permanent fixture. The large base and solid stand install onto a desk or countertop using either predrilled holes and included mounting hardware or the included set of double-sided adhesive silicone pads. Also included is an elegant stylus, with an elastic tether and built-in holder on the stand base.

Features Include:

- Case tilts and rotates 360 degrees for portrait and landscape orientations
- 360 degree rotating base for easy register and customer-side transactions
- Locking enclosure keeps iPad Pro 12.9 secured inside kiosk enclosure
- Optional locking steel cable with master key compatibility
- Enclosure designed for iPad Pro 12.9 allows access to all ports and buttons
- Mounts to flat surface using included hardware or adhesive silicone pads
- Optional metal home button cover
- Great for office, retail, restaurant, classroom, or tradeshow use
- Includes stylus with convenient tether and built-in holder on base
- Padded casing and base to protect tablet and furniture
- Compatible with iPad Pro 12.9
