Articulating Wall Mounting Security Enclosure

for iPad, iPad Air, and iPad Pro 9.7

Articulating Wall Mounting Security Enclosure

Security meets functionality with the Articulating Wall Mounting Security Enclosure for iPad Air, iPad Pro 9.7, and iPad Gen. 5 (2017). Perfect for classrooms, conference rooms, or doctors' offices, this powerful holder makes your iPad the protected centerpiece of your workspace. 4 flexible joints allow for vast positioning options, while a 360-degree rotating tablet enclosure enables quick shifts between portrait and landscape orientations. This arm mount combines its full range of maneuverability with ingenious space-saving design, folding from its maximum extension of 16.5 inches to nearly flush against the wall. A top-notch lock and key security system keeps your device protected against theft. The arm mounts easily to any wall with a set of included hardware, and the secure case enclosure allows access to all ports, buttons, and cameras. This case can be outfitted with an included metal Home button cover to prevent unwanted menu access. This case also features a multi-faceted charge cable management system, employing slack-organizing space inside the case and a rubberized cutout at the rear.

Features:

- 4 flexible, sturdy joints allow for custom positioning
- Case enclosure rotates 360 degrees for portrait and landscape orientations
- Arm folds nearly flush with wall
- Arm easily mounts to any wall with included hardware
- Enclosure protects tablet with master key compatible lock
