

LOCKPOINT

DUAL TABLET KIOSK STATION

Dual Tablet Kiosk Station

The Lockpoint series from CTA Digital represents the pinnacle of security, style, and functionality. This premium, thick gauge steel kiosk display uses an inventive table tent design to accommodate twin tablet screens on opposite sides of a single stand. Each tablet is secured in one of the padded enclosures, angled upward for easy access and readability, and protected from theft by way of a powerful lock and key system. These enclosures are designed to allow full access to your tablets' ports, buttons, cameras, and headphone jacks, for card reader compatibility. The stand mounts easily to your desk, countertop, or other flat surface with a set of included hardware. For an optional measure of additional security, a locking steel cable attaches to the Kensington slot on the stand base, attaching at the other end to any permanent fixture.

Features:

- Locking, heavy-gauge steel dual tablet display protects 2 tablets from theft
- Inventive table tent design angles both tablets upward for easy access and readability
- Enclosures allow full access to ports, buttons, cameras, and jacks
- Mounts easily to countertop, desk, or table with included hardware
- Optional security cable for additional theft protection
- Perfect for classrooms, conference rooms, and more
- Compatible with iPad Air, iPad Pro 9.7, iPad Pro 10.5, iPad Gen. 5 (2017), iPad Gen. 6 (2018), Galaxy Tab S3 9.7, and Galaxy Tab S2 9.7
- Compatible with headphone jack credit card readers
