

# Laptop Security Station

## Laptop Security Station

Your laptop stays protected and fully functional with this highly adjustable laptop security station, perfect for classrooms, offices, and retail spaces. The cleverly engineered mounting bracket installs to your tabletop surface with included hardware, while 2 slide-on cradle ends lock your computer in place. An included anti-theft cable can be attached along the rails of the security station and looped around any permanent fixture for an optional measure of additional security. Scratch-protective rubber feet and rounded cradle ends eliminate risk of damage to your laptop and furniture. The tough ABS and metal frame combines durability and open design to ensure that your laptop remains secure and entirely accessible.
