

Quick Release Secure Table Kiosk with Inductive Charging Case

Quick Release Secure Table Kiosk with Inductive Charging Case

CTA Digital's game changing Quick Release Secure Table Kiosk with Inductive Charging Case is the perfect solution for anyone who needs a rugged tablet holder – complete with wireless charging capabilities. The case protects your device with a drop-tested, splash-proof rubber coating. The stand is made of sturdy metal and allows intuitive cable routing through the center. Plug the base into a wall outlet. The case plugs into your tablet's charging port. Then, simply line up the case onto the inductive pad on the kiosk. Electromagnetic fields between the tablet and the docking station create a wireless current that charges the battery. When you're ready to switch from the kiosk to handheld use, simply pop the case off the base, slip your hand through the cushioned strap, and you're ready to go. Compatible with iPad 7 - 9 Generation 10.2-inch, iPad Air 4, iPad Pro 10.5-inch, iPad Air 3

Features:

- Sturdy metal stand with wall plug
- Wireless charging function
