Universal Holder Desk Mount With Stylus

Universal Holder Desk Mount with Stylus

The sturdy, yet slim desk mount with a universal holder is a stylish and functional tool for home offices, studios, conference rooms, or on-the go. The sleek base sits on four rubber pads that both protect surfaces and prevent sliding. Drill holes allow easy mounting directly to any horizontal (or even a wall) surface. The stand features two joints. The bottom allows you to tilt and fold the stand flat for easy transport. The top joint both tilts for optimal positioning and rotates a full 360-degrees for use in either portrait or landscape orientation. The universal tablet mount is adjustable to any size tablet from 7 to 14.5 inches diagonally, and attaches via a fixed VESA plate. Unique corner tabs with foam padding cradle your device in place. To use, simply adjust the arms for the perfect fit. Secure your device in place with the included lock-and-key security system. An attached stylus lets you work with ease. All cables and charging cords may be neatly routed through the center body.

Features:

- Strong metal construction
- Universal tablet holder connects via a VESA 75 x 75 and 100 x 100-millimeter mounting plate
- Allows full access to charge port, speakers, camera, and home button
- Scratch protected padding on weighted base
- Perfect for home offices, retail, studios, conference rooms, and more.
- Compatible with any tablet from 7 to 14.5 inches including iPad, Galaxy, Samsung, and others
