Laptop Security Arm with VESA Mounting Base For Laptops

Laptop Security Arm with VESA Mounting Base

Your laptop stays protected and fully functional with this adjustable laptop security station, perfect for classrooms, offices, and retail spaces. The cleverly engineered mounting bracket installs to your tabletop surface with included hardware, while a security holder locks your computer in place. The sturdy mount base installs easily via a standard VESA mount, supporting a heavy-duty carbon fiber support arm. Scratch-protective rubber feet and rounded cradle ends eliminate risk of damage to your laptop and furniture.

The tough ABS and metal frame combine durability, mobility and open design to ensure that your laptop remains secure and entirely accessible while attached by a ball connection.
