

# Vehicle Mounting Base with VESA Plate

ADD-AUTSAM

\*\*Laptop not included

## Vehicle Mounting Base with VESA Plate

This flexible, multi-jointed tablet mount provides a comfortable display for the front seat of commercial or passenger vehicles. The base features a drill-free car mount that installs easily to your vehicle's seat rail using included mounting hardware. It can be safely removed at any time. The arm is fully customizable by way of two tilting, rotating joints, plus folding clasps that lock in place to prevent unwanted movement while in transit. The VESA plate tilts and rotates 360 degrees for portrait or landscape orientation. The arm mount is also equipped with an interior cable management system to keep charging cables neat and tidy. This handy mount works seamlessly with CTA Digital's popular Paragon Enclosures and other VESA-compatible device cases (not included).

### Features:

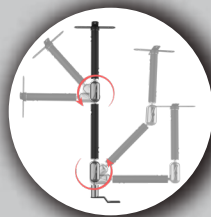

- Mounts to your vehicle's seat rail with no drilling required
- Two flexible joints on arm rotate, tilt, and lock in place for easy angle adjustment
- VESA plate tilts and rotates 360 degrees for portrait and landscape orientations
- Perfect for passenger or commercial vehicles, like taxis, delivery trucks, emergency vehicles, and more
- Interior cable routing system enables clean charging while in use
- Compatible with tablet cases up to .5 inches in total thickness, including CTA Digital's Paragon Enclosure

### Specifications:

- Overall Dimensions: 23.5 x 5-inches
- Weight: 1.875 lbs.

### Package includes:

- (1) Car mount
