Clamp Mounting Base with VESA Plate

Clamp Mounting Base with VESA Plate

This flexible, multi-jointed tablet mount creates a versatile digital workspace that easily clamps to table tops, desks, counters, or pipes. The arm is fully customizable by way of two tilting, rotating joints, that tighten with a simple turn of the handle rod. The VESA plate tilts and rotates 360 degrees for portrait or landscape orientation. A padded clamp provides a secure hold that won't damage surfaces. To attach, simply place the rubber gripped clamp groove onto your flat surface. Rotate the tightening handle clockwise until you've reached the desired hold. If attaching to a pipe or tube, simply remove the triangular piece at the top of the clamp to ensure a tight grip around the pipe. The arm mount is also equipped with an interior cable management system to keep charging cables neat and tidy. This top is compatible with any VESA-mount tablet cases or monitors, including CTA Digital's popular Paragon Enclosures (not included).

**Laptop not included

Features:

- Two flexible joints on arm rotate, tilt, and lock in place for easy angle adjustment
- VESA plate tilts and rotates 360 degrees for portrait and landscape orientations
- Perfect for home or office use
- Interior cable routing system enables clean charging while in use
- Compatible with tablet cases up to .5 inches in total thickness, including CTA Digital's Paragon Enclosure

Specifications:

- Dimensions: 16.25 x 5-inches
- Weight: 1.75 lbs.

Package includes:

- (1) Clamp with VESA mount
- (1) Set of mounting hardware
