Articulating Laptop Plate and Pole Clamp Mount

Articulating Laptop Plate and Pole Clamp Mount

CTA Digital's Articulating Laptop Plate and Pole Clamp Mount lets users convert their laptops into a versatile digital workstation. Laptops are held firmly in place with rubber grips at the base, a 3/4-inch, and adjustable spring-loaded arms at either side. Once installed, laptops can be rotated 360-degrees on the plate offering preferred viewing orientation. The laptop is held by a sturdy, rubber-grip rotary clamp and 16" pole. An 11" extender arm with VESA plate attaches the laptop plate to the center pole, creating a sleek podium-like appearance. This mount is compatible with laptops from 11.25 – 17.625 inches wide.

Features:

- Mounts to tables, desks, or countertops up to 2-1/4" thick
- Swivels 365-degrees around vertical pole for convenient viewing angle adjustment
- VESA joint provides for tilt flexibility
- The clamp easily connects additional add-on components, pole extenders, or goosenecks
- Made of heavy-duty steel
- Perfect for conference rooms, auditoriums., vehicle mounts, kiosks, and other mobile stands.

Specifications:

- Laptop plate dimensions: 23"H x 16-1/4"L x 12-1/8"W
- Pole length: 11"
- Weight: 5.78lbs

Package includes:

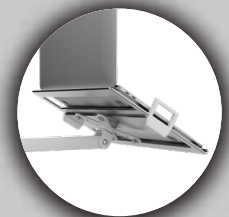

- (1) VESA compatible laptop plate (fully assembled)
- (1) Pole
- (1) VESA-plate on arm attachment
- (1) Clamp mount
- (1) Set hardware
