Thick, Heavy-Duty Security Gooseneck w/ Dual VESA Plates (White)

Thick, Heavy-Duty Security Gooseneck w/ Dual VESA Plates (White)

This unique gooseneck component gives users who wish to customize their digital workspace a creative option for home offices, shops, or anyplace requiring an innovative tablet mount solution. Two standard 75 x 75, and 100 x 100-millimeter VESA plates attach quickly to the ends of a sturdy, large gooseneck. Screw one plate into a table top, desk, conference table, or retail counter. Attach the second VESA plate to any compatible tablet case, including CTA's popular Paragon Enclosure (PAD-PARAW). The thick gooseneck has plenty of room to neatly route cables out of sight. The bendable gooseneck provides a wide array of positioning options, as well as the ability to view tablets in either portrait or landscape orientation.
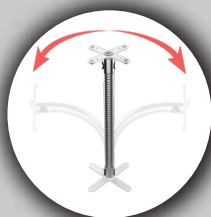

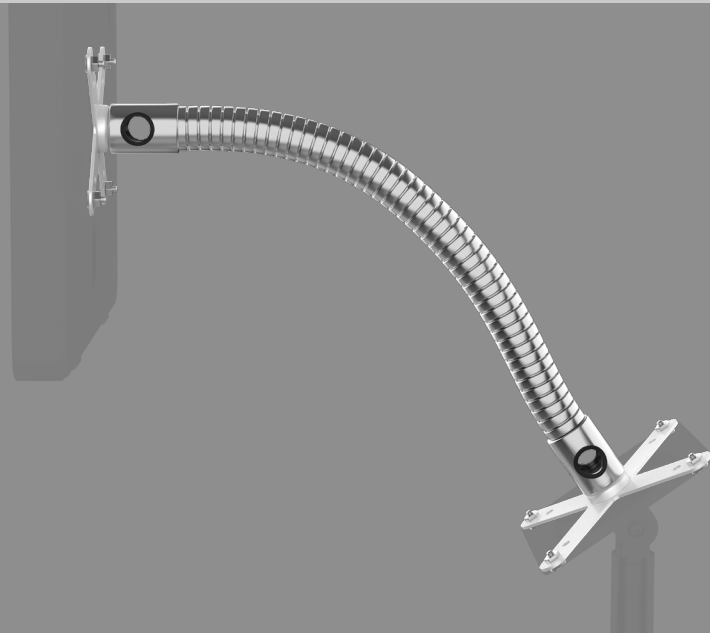

Features:

• Sturdy and thick metal gooseneck with dual VESA plates
• Flexible gooseneck allows for a multitude or angle setups providing the optimal and preferred view
• Thick gooseneck allows for clean cable routing throughout tucking away wires and routing them seamlessly from one end to another
• VESA plate can be screwed directly into a table, countertop, or other surface
• Compatible 75 x 75-millimeter VESA mount compatible enclosures, including CTA's Paragon enclosures
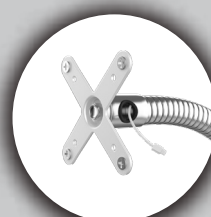

Specifications:

• Overall Dimensions: 17.25"L x 6.25"W
• Dimension Range: 16"L
• Weight: 2 lbs 1 oz

Package includes:

(1) Gooseneck
