Add-On VESA Compatible Keyboard Tray (Black)

Add-On VESA Compatible Keyboard Tray (Black)

CTA Digital's VESA-Compatible Keyboard Tray add-on makes it simple to use an external keyboard to a tablet. This L-shaped bracket lets users easily mount a tablet enclosure (like CTA's popular Paragon line of enclosures) to walls, mobile floor stands, or anyplace a digital workstation is required. The back plate comes with pre-drilled mounting holes in a standard VESA 75 x 75 or 100 x 100-millimeter pattern. Cables can be easily routed through the circular opening. The bottom bracket safely holds external keyboards in place with slip-resistant foam padding. This useful bracket and tray holds monitors or screens up to 13 inches.

Features:

- Lightweight aluminum L-shaped mount with pre-drilled VESA-Compatible holes
- Tray features slip-resistant padding to hold external keyboards in place
- Bracket works seamlessly with CTA Digital's PAD-PARAW line of Paragon Enclosures
- Compatible with monitor screens up to 13 inches

Specifications:

- Dimensions: 12.25"H x 11.75"W x 7-7/8"D
- Keyboard tray dimensions: 11.5" x 7.25"
- Weight: 1.4lbs

Package includes:

- (1) Bracket with keyboard tray
- (1) Set hardware
