Vehicle Dash Mount Kit w/ Custom Flex Arms

for 7th - 14th Inch Tablets

Vehicle Dash Mount Kit w/ Custom Flex Arms

CTA Digital's Vehicle Dash Mount Kit with Custom Flex Arms is the ideal tablet holder for commercial vehicle dash boards, ride share, delivery trucks, emergency vehicles, and more. This sturdy mount base installs easily via (4) screws, and supports a heavy carbon fiber support arm. Three adjustment points give a generous array of angle options, while the head offers full rotation for use in portrait or landscape modes. The mount works with or without tablet enclosures up to 1 inch thick. Your device is securely held – and locked – by an adjustable frame that cradles the corners then locks in place with the turn of the included key. If using without a device case, a foam piece provides the padding necessary for a tight fit within the corner brackets. Tablets can be easily removed while not in use.
