

Dual VESA Security Enclosure Desk Mount w/ Storage Compartment (Black / White)

PAD-2VDMB/ PAD-2VDMW

INSTRUCTION - MANUAL

CONTENTS:

INSTALLATION:

1. Mounting Setup

Mounting to Direct Surface

OR

Mounting to Another Vesa Compatible Item

1A. When mounting into a surface for a desk mount mode, use (4) screws and (4) anchors as illustrated (B) and rotate through desk mount (A). Using a screwdriver (not provided), rotate in until securely tightened as shown above.

1B. When mounting into CTA Digital's ADD-PARAFS2 stands, first open the back door to the storage area. Then use the provided allen key tool (I) and rotate in screws (H) on top of the washers (J) as shown until securely fastened. Shut door and lock with key. (G)

2. Setting Up Enclosures

2A. Align VESA holes of CTA's enclosure (K) with one set of the desk mount (A) VESA holes in landscape orientation. Using the included allen key tool (F), rotate in screws (C) while holding hex nut (D) on the back side until securely tightened. Repeat the process for the other set of VESA holes and other enclosure.

3. Setting up Cable Routing and Access to Back Storage Area

3A. Unlock back storage area using the keys (G). Fish through the holes your cable as shown into the back storage area. Either fish through the holes at the bottom if required or even connect to any small charging items, device or accessories as needed that can fit into the space.

4. Setting up Tablet Enclosure Interior Foam Adapters, Sheet Adapter and Security

4A. Lock or unlock your tablet enclosure (K) with security key (G) as shown. Make sure to do a full 360 degree rotation before removing.

**Tablet shown for illustration and NOT INCLUDED.

4B. Find the appropriate size foam padding / sheet (L) for the device you wish to use. Make sure the device is compatible for the enclosure before starting. Lay in device and connect any cables/cords as needed. There are sticker notes at the corners to identify which device is compatible

**Tablet shown for illustration and NOT INCLUDED.

4C. If needed, lay-in correct included masking insert. The foam insert is to block and excess space and make a seamless fit for smaller tablets. Close and lock enclosure afterwards and you're set.
